

4: Should Abortion Be Allowed For Rape or Incest?

Suggested Facebook Posts

FB: What is the status of an unborn child? From the time of fertilization, he is a living, whole organism of the human species. He is actively developing each day. Like us, he needs only a proper environment and adequate nutrition to live. No essential change takes place from fertilization onward. The unborn aren't *potential* human beings. Rather, they *are* human beings with great potential. Learn more about Apologetics and how God values all human life, by visiting ApologeticsBible.com.

FB: Scripture says humans are made in God's image (Gn 1:26-27) and that it's wrong to kill them (Ex 20:13; Pr 6:16-19; Jr 22:3). Scripture does not distinguish between humans at an early stage of development and humans at a later stage, nor does it distinguish between those conceived in rape and those conceived otherwise. Human life is human life, period, and all vulnerable humans deserve protection (Pr 24:11-12). Discover how Apologetics can fuel your faith at ApologeticsBible.com
